**Personal Statement:**

***My paid monthly world tour, compliments of World Airways, came to an end with the FAA's (then) mandatory "age 60" retirement rule. Then my part time flying gig with the Army Corps of Engineers at Offutt AFB ended with their "age 65" retirement rule. Now my hobbies including computers (Association webmaster since 2007), golf, and watching Grandkids grow up, don't have any age restrictions.***

***Married to Peg since 1968, we have three daughters, Karin, Laura, and Colleen and nine grandchildren...all of them living in the Omaha area.***

***Biography:*** Born in Gilman, Colorado, as the son of an Air Force pilot I grew up in several locations including Germany, Japan, North Carolina, Washington, and graduated from Wiesbaden High School, Germany in 1964, and Boston College in 1968.

2011-present Full time Grandkids' sports watcher and golf duffer.... and web-guy
