

In Oct 1998 I went to a high school reunion in my home town of Anderson, IN. Our road trip continued east to Dayton and the AF Museum. As fate would have, it on 5 Oct 1998, there sat #299 still on the flat bed. It had just been there a few days after arriving from Kansas. This photo has me under the nose where I spent 73.5 airborne hours from Oct 1960 to Feb 1966, ops, trainers, wx scout, etc. with stalwart ACs such as Klausner, Urschler, DL Thomas and Jimmie P Haynes. Wonder I survived, huh?
